

Casey Johnson
Brownfield
LD 404

I Casey johnson of Brownfield Maine do solemnly swear that my family, friends and I would like to travel safely from the Mtns to the coast on a designated non motorized path. My friends and I have traveled this path before and all agree that it is in desperate need of improvement and safety features for crossings. The path offers great scenic overlooks that would promote health, and fitness. Maine is a beautiful state that could boast yet again another reason to vacation
