

Julie Colonna  
All of them  
LD 209

I OPPOSE LD 404, 209 & LD 1450. As a property owner and business owner that has this railroad track run besides my properties I have been a victim and so have my tenants to crime and vandalism. The City and area communities cannot control the issues they currently have with the homeless, drugs addicts and criminals now that are overrunning their parks and the un-used tracks. The rail corridor needs to stay and be used for rail transportation and growth for connecting our communities, not converted into another bike and walking path. A path, that will be filled with individuals that will harm the area residents and business owners. As someone who has personally been a victim of these vagrants I urge you to drive around the City of Portland, down to the parks, down by the tracks and see for yourself what is happening. Protect yourself, your family and your business and VOTE NO ON LD 209, LD 404, AND LD 1450!!
