

Laurie Kelley
Orland
LD 1977

I am support of bill 1977 and thank Rep. Maggie O'Neil for sponsoring it. I feel Maine citizens should have the strongest privacy protection that a law can provide. Privacy in the digital age is a challenge and we need to do whatever possible to ensure our personal data stays private automatically, without the need to "opt-out" of sharing or having our information sold. Privacy is an asset. Without protection, we are open to unfathomable risks. Thank you.
