

Marybeth Allen  
Orland  
LD 1977

I am writing to support LD 1977 and I thank Rep. Maggie O'Neill for sponsoring it. Protecting your right to privacy is a challenge in these times and I am in favor of this bill, as compared to others being offered, because it offers the most protection. We, the ordinary citizen, shouldn't have to take the initiative and "opt out" of their plans to share and sell any data they collect from me when I visit their sites, or even "choosing" which cookies I will allow. How does the "ordinary citizen" keep up with all of that?? And, why would I trust the corporations and tech companies, to do what is best for me as opposed to what is best for them? Privacy is a right, and asset and we need to honor and protect it.
