LD 1578

Please support the National Popular Vote bill LD 1578. The vote of every person in every state should count equally in electing our President. We should not continue the current system, which allows just a few states to determine the election outcome. The electoral votes in just a few states count so heavily in the outcome that a) Maine gets very little campaign attention, and b) Maine voters have little incentive to vote. In the recent past, it has led to the election of Presidents who lost the popular vote. I'm counting on you to join many other states in support of An Act to Adopt an Interstate Compact to Elect the President of the United States by National Popular Vote. Thank you.
