LD 1578

Good day, My name is Susan LoGiudice and I am a resident of both Portland and Hebron. I am submitting testimony in support of LD 1578, "An Act to Adopt and Interstate Compact....." I believe that our country is overdue for a rehaul of the presidential electoral process. The system that was put in place over 200 years, when many people could not read and our communication systems were in their infancy, no longer serves us. Please vote in favor of this bill so that Maine can make every vote count.

Thank you.
