LD 1578

With all due respect to the legislators involved in presenting this bill I am adamantly opposed to LD 1578. This bill to join a national popular vote in fact takes away the principle of every vote counting in a national election. The Electoral Collage was carefully crafted by our Founding Fathers to make sure every citizen of this country's vote and voice would be heard.

This bill is a travesty to the rights of every citiaen in this country and ought not pass.
Thank you.
