

My name is Valerie Kelly; I live on Peaks Island. I am testifying in support of LD 1578, "An Act to Adopt an Interstate Compact to Elect the President of the United States by National Popular Vote".

I find it disturbing that I live in one of the greatest democracies in the world, yet our system allows a candidate to become President even if they don't obtain the most votes. By approving LD1578, the Maine Legislature can join other states that have already approved the interstate compact and move us a step closer to the day when our president will always be the candidate receiving the most votes. The NPV legislation is non-partisan and has the added benefit of giving equal weight to every voter regardless of the state in which they live. This will encourage candidates to pay more attention to smaller states like Maine that are often ignored by leading candidates. It should also reduce the confusion and animosity that arises among voters when they realize that all votes do not have equal value in presidential elections.

Thank-you for the opportunity to testify.
