The legislation proposed seeks to give away rights of Maine voters to elect a President of their choosing. Adopting this legislation only a large states such as New York, California, Florida, and Texas to speak for small town Mainers. Aside from our belief in the strength of our Republic, we do not share values with these states. States with the largest populations will now cancel out the vote of Mainers not only along our largest coastal cities, but also our farm towns and small villages. This legislation is a tyrannical power grab by progressive democrats with no respect for the rule of our federal electoral system, who seek to shove down the values of New York City, Los Angeles, San Francisco, and Chicago on to innocent Mainers. Shame on these Democrats.
