LD 1578

I am writing to urge my representatives to vote against this ridiculous bill! This bill would actually take away powers from the state of Maine. The electoral college system is there to help even the score, so to speak, between the far more heavily populated states, and the rural, less populated states. This bill would destroy that, and would also allow the left wing, pro communist, pro high tax states like New York and California win even easier. our nation is already in serious trouble, financially, and the last thing we need is such nonsense. Please do not support this terrible legislation!

Yours truly,
James Andrews
