Winslow
LD 780

I support passage of LD 780. For forty six years, I have advocated for reproductive autonomy, and am thrilled with the passage of legislation last session and this proposal today.

It is time for Maine to enshrine in our State Constitution our right to reproductive autonomy. We have now have these rights in law but we must further protect them with our Constitution.

Common sense dictates that we make reproductive decisions about our own bodies without being forced to submit to laws created by a minority who are often guided by their own personal religious beliefs.

We should not have to fight with every election to preserve these rights. People's health and lives are at stake. You've heard the stories, met the people.

I urge you to do your duty to represent the vast majority of people in Maine who support this proposal.
