Lewiston
LD 2091

I am in favor of LD 2091 because I find it wasteful to throw out "doggie bag" containers of food taken from restaurants, knowing that few if any can really be recycled. I think that the retail and restaurant industries would like to do their part in recycling. Our landfills are filling up.

Just as leftover food and beyond-selling-date food is now being put to use where needed, let's apply the same logic to food containers.
