

Karen Prieto
Brunswick
LD 780

Hello, my name is Karen, I grew up in Topsham, and currently live in Brunswick.

Since the Supreme Court overturned Roe vs Wade, I've personally felt angry that the government apparently has more control over what happens to a woman's body than she does herself.

Certainly, the choice to have an abortion is gravely serious and must never be considered lightly. But it is an extremely personal decision. It seems to me that denying a woman's personal choice reduces her to less than human.

Here in Maine, I'm worried that our reproductive health care is in jeopardy.

NO ONE has more right to make decisions about my health and body than I do. And I believe the same for all Mainers.

Therefore I ask you to please PASS LD 780 so that Mainers can vote on this proposed amendment in our next election.
