

Richard Bernier
South Berwick
LD 2077

I oppose LD 2077 “an act regarding customer costs and the Environmental and Health Effects of Natural Gas”, and it “ought not to pass” Natural gas is one of the main options people in Maine have to heat their homes and heat their water and cook their food. Natural gas is still one of the most cost effective ways continue one’s life. What this State needs is more pipelines to lessen costs so we can reach all of our personal financial goals. My vote is a resounding NO!
