

Don Jackson
Portland
LD 780

I am strongly in favor of LD 780. I have three daughters of childbearing age. The thought that the State of Maine could be a place where their full bodily autonomy could be in doubt horrifies me. Abortion bans with exceptions do not work, as has been recently in evidence in states with anti-abortion laws, enacted under political pressure from radical religious groups: Pregnant women with dire medical conditions are being denied life-saving treatment, while doctors are fearful of even giving proper medical advice. This is decidedly NOT pro-life and it is NOT who we are in Maine. Do the right thing and advance this bill. Thank you.
