LD 780

Dear Judiciary Committee Members: Thank you for your service.

LD780 looking to enshrine abortion in Maine Constitution is both an immoral and unnecessary addition to an already existing, extreme, recently passed bill to allow abortion up until birth.

Abortion is a brutal, barbaric and painful end to an innocent life. It also is far more dangerous to the life of the mother, particularly in late term pregnancy. Women continue to die at the hands of abortionists.

It also is a political issue that funds an industry only interested in their bottom line at the expense of confused and fearful women in a challenging time in their lives.

The ramifications and potential damage of the passage of this bill are incalculable at this point. It ought not to pass.
