

Rebecca Hazelton  
Eustis, Maine  
LD 780

I am completely opposed to LD780. This bill "Ought not to pass". The lives of our unborn children are as important as anyone who is viably born. These unborn children have no voice and so I stand for them to say "I am worthy to live". There are untold couples looking to adopt babies. If a woman is given the chance to know the truth and told that she can give a blessing to others, most will choose LIFE. It also saves the mother because the scars on women who have chosen abortion are deep. Most women who choose abortion feel trapped. They end up with physical and emotional scars for life. This ought not to be. Maine is facing a severe judgment for allowing women to abort their babies to full term. Please repent of this evil before it is too late.
