LD 780

As it stands, I am opposed to the concept and wording of this bill. I believe it is too ambiguous, both in its purpose and wording. If the intent is to prevent eugenic principles to be forwarded by governing bodies, that is one thing. However, I fear that this is an attempt by those who support abortion in any case, up until and perhaps even beyond birth, to constitutionalize this highly controversial topic.

Thank you,
