

Nathan Persinger
Hampden
LD 780

Senator Carney and Representative Moonen, Honorable Members of the Joint Standing Committee on Judiciary, my name is Nathan Persinger, and I am a resident of Hampden. I am providing this testify in opposition to LD 780.

When is enough, enough? As if LD 1619 wasn't enough, constitutionalizing abortion up to birth is even more appalling. This is an outright war on the preborn. A holocaust has been declared upon the most defenseless citizens of our state. LD 780 states that the State shall not deny or infringe... and that every person has a right to...the liberty to determine one's own life course. What about the rights and liberties of the tiniest of our state's citizens? Those babies you want to slaughter in your own bloodlust are people. Do their rights not count? Obviously not. Those people are the future of this state, and you are literally sucking the life out of them, right from their mothers' wombs. This bill ought not to even have made it to committee, and the fact that it even gets a hearing is disgusting. Shame on you and those who support it.

Though you deny His existence, every knee will bow, and every tongue confess that Jesus Christ is Lord. You will be judged for your actions and will pay for them for eternity.

By the mercies of God, please vote ought not to pass. May He grant you the wisdom and courage to do so.
