

Diane Loranger  
Saco  
LD 780

In its last session this legislative body shunned its responsibility to protect Maine children by voting to enact LD 1619. Let me be clear, the termination of a viable fetus is not abortion. It is infanticide, the vilest of all crimes.

Blinded by your hubris, you are now doubling down and attempting to legitimize this inhumane practice by enshrining it into Maine's constitution with LD 780.

Please be advised that outraged Mainers, the people you work for, are paying attention and will vote accordingly.

Responsible Mainers with a sense of morality do not support infanticide as an alternative to the responsible use of effective birth control.
