

Naomi Cowperthwaite  
Thomaston  
LD 780

To whom it may concern,

I write to you today, as my representatives, and the legislators in my state, on behalf of the unborn children who are under your authority. It is your duty to vote Ought Not To Pass on LD#780. This bill seems to be giving everyone the right to do as they wish with their own bodies, with which sentiment I must agree, to some extent. But in reality, it will be used by women to murder their own children in their womb, under the guise of "personal reproductive autonomy." Life is precious in God's sight, and humans have no right whatsoever to choose who lives and who dies, based on age, gender, location, dependency, or size. God has said in the Bible: "So God created man in his own image, in the image of God he created him; male and female he created them." (Genesis 1:27) God intricately forms every baby who's ever existed, in their mother's womb. They are humans from the moment of conception. In this country, we have laws. Every state, and the country itself, has laws against murdering other people. Why is it that in the case of defenseless, innocent babies, we can murder them ruthlessly?

We all know about the Holocaust, Hitler murdered people he believed to be less human than himself. Is it not the same thing for politicians and mothers to call unborn children "lesser" and kill them, simply so that the baby won't be a hindrance to them? What state has our nation come to? We kill our own offspring, in pursuit of our own goals. This is not justice. We cry that it's the "Land of the free and home of the brave!" Where are the brave men and women who will stand up against this evil? I call you to action! Be a voice for those who cannot speak for themselves! Defend the helpless!

The only authority you have comes from God, and He is a righteous judge. He has given you authority in order that you might do good, not so that you can defy His law! Again, I charge you, vote Ought Not To Pass on LD#780.

Thank you for your time. You all are in my prayers.
