

Anne Norman
S Thomaston
LD 780

Life is a precious gift given to us and should be protected. We should not make abortion a choice for women. I realize circumstances are not always good for women who become pregnant but life is life and we do not have the right to take a life away. The bill LD 780 would make it too easy to murder their child. Please DO NOT consider this proposal sponsored by Eloise Vitelli. Thank you
