Dover Foxcoft
LD 780

Good morning, I am writing this testimony in the hope that at least one innocent human life can be saved. The right to kill a child should not be in the Constitution. There is no right to kill anything in the Constitution, why should the killing of innocent children be in there? We already allow the murder of an unborn child up to the point of birth, why do we need to go beyond this? Maine used to be better than this. It used to be a State to be proud of. I ask that you vote 'No' on LD 780.
