

Matt Gilley
Harpwell
LD 780

Good day members of the judiciary committee. My name is Matthew Gilley and I am a lifelong resident of Harpswell. I am writing to you today and urging you to oppose ld 780. Healthcare is not a right and should not be enshrined in the constitution. There are already ample protections in place for abortion. Especially after some of the legislation passed last year. I'd be curious to why some of the sponsors to adding this to the amendment can't seem to understand section 16 of the Maine constitution. That amendment is abundantly clear but they have legislation on the docket that violates that amendment. This is a prime example of rules for thee not for me. Please oppose this.
