

Keena Tracy  
Lisbon  
LD 2093

This is Keena Tracy, farmer and owner of Little Ridge Farm in Lisbon Falls. Through the Maine Harvest Bucks program, we were able to serve produce to 8 new families in the local area. They thoroughly enjoyed the fresh produce throughout the summer and have already signed up for the 2024 season. Programs like these make a huge impact on our community; both for us as a business and for our customers. SNAP recipients are so excited to participate in the farm share; bringing their families to the farm, selecting fresh produce and seeing where their food is grown. They can appreciate the flavor and health benefits this program allows. And our farm appreciates the ability to serve these customers without having to sacrifice profit. Most of these families have kids in the Lisbon school district where they learn about local food through the Harvest of the Month Program. Then to visit the farm and eat food that they are learning about gets the kids excited about eating healthy, which is a big win for Maine.
