

Naomi Cowperthwaite
Thomaston
LD 853

Dear legislators and members of the housing committee,
I ask you to vote Ought Not To Pass on LD#853.

Maine doesn't need this law, and how (if I may ask) will we provide housing to every homeless person? By taking from those who have property and giving it to others? This isn't freedom, it's socialism. Or perhaps you will buy property and homes from citizens. With what? Tax dollars? We as citizens are free to help our neighbors in need, but we don't need a change in the constitution to force us to!

The Bible says: "You shall love your neighbor as yourself." (Matthew 22:39) And I, as a Christian, strive to do that.

Thank you for your time, and thank you for serving us, most honorable members of the legislature.
