

Scott CARTER
Augusta
LD 1517

I oppose LD 1517 as it is similar to New York trying to support past convictions of cannabis law. I appreciate that it took so long to make cannabis legal, however, the laws were the laws, and I believe those past convicted should be allowed to compete for a license, they should not get preference or business training and related to be successful. The funds should be used to educate ALL possible applicants on how to apply and operate, not a special carve out.
