Hello my name is Jordan Smith, my wife and I have been caregivers in Maine since 2010. While I theoretically support this bill I cannot 100%. We can't allow this while OCP is claiming any gathering or events with caregivers non compliant. There needs to be a medical counterpart to this bill allowing explicitly for caregivers to be allowed to run similar businesses catering to medical patients. I would not want to see the rules exactly the same but medical operators should have similar rights in this regard. Thank you so much for your time.
