

Susan Dunning
Freeport
LD 2077

Representative Zeigler, Senator Lawrence, and Members of the Energy, Utilities and
Technology Committee --

LD 2077: Please vote OUGHT NOT TO PASS.

In a state like Maine, it is unconscionable to even consider passing a bill that limits
options for how people heat their homes. In addition, it is simply inappropriate for
any government to limit consumers' access to an affordable and relatively clean
source of energy.

Again, please vote OUGHT NOT TO PASS on LD 2077.

Respectfully,
Susan Dunning
Freeport, Maine
