

Robin Smith
Hampden
LD 780

An amendment to the Maine constitution should never be considered especially regarding the nature of the bill LD780.

Might I ask, since scientists have deemed that life |DOES begin at conception, why are we not considering 'the bodily autonomy' of the developing child in the womb who does have life and should be entitled to the rights of "life, liberty and the pursuit of happiness" as declared in our Declaration of Independence.

One person should not receive 'bodily autonomy' to the neglect and destruction of the other.

Robin R. Smith
