LD 2141

Dear Chair LaFountain, Chair Landry, and members of the Inland Fisheries and Wildlife Committee,

I live on Lake Arrowhead (York County) where we now have THREE invasive species in our lake, and they are spreading to other lakes. In 2023 the DEP was unable to do the planned treatments because the money was not there. We are at a pivotal moment where the State needs to act, this year, or face the loss of lake quality in our State.

Please pass LD 2141

Dale Schultz
