

Erinn Tardiff
North Yarmouth
LD 1750

I am writing in to say I am OPPOSED to this rail trail being passed. As a direct abutter to this line I do not want this in my backyard. I purchased this land for the peaceful and private setting not to have people walking, biking or other means of transportation outside my window.

. I am also OPPOSED to having this put through without any information as to how this will impact my taxes. How will these trails be monitored daily? Who is responsible for handling misuse of the trail? Is this now a new issue I need to deal with as a homeowner that abuts this? North Yarmouth does not have a police force so this will fall on someone else's plate to step in and manage issues. What will be done to keep snowmobiles, ATV or other forms for transportation from using this? There are many, many steep cliffs that pose a serious safety risk in cell reception dead zones. What precautions will take place to prevent a deadly accident? I am concerned about encampments making their way up this trail as more and more we see new ones cropping up weekly. This will lead to trash and overall maintenance that seemly will fall to our town the pay for.

I do not feel this is a good deal for me or this town.
