LD 2141

Dear Committee Members,

I am wiring in support of LD 2141 - An Act to Enhance Protections for and Better Address Invasive Aquatic Plant Infestations in Inland Waters of the State.

As a Maine native having had the opportunity to live in many different places all over the world, I returned to settle in Maine primarily for its natural beauty confident in the special pride Mainers take in it.

I urge you to pass this bill so Maine remains proactive in its care for our natural resources so we don't suffer their loss in the very near future.

Thank you for your consideration.
