LD 1667

Linda Haskell, Chair Republican Party Garland ,Maine. I oppose LD1667. Chairperson and members of the committee. I oppose LD1667 very strongly. We have places in the State named for special and significant reasons. Do we the Republican and Democrat members of the State of Maine have more pressing business to address? The tax payers of the State of Maine are tiring of the trivial and nonsensical fuss in the day to day proceedings at the State House in Augusta. It is time for the State of Maine Representatives, State of Maine Congressmen and State of Maine committees to get busy addressing the needs of the Maine residents, reasonable and realistic needed laws and NOT the use of their position to enable themselves in self enrichment and social power.
