

Susan Van Alsenoy  
Wiscasset  
LD 2027

It is to show my support for LD2027 that I am submitting this written testimony. When I moved to Wiscasset in 2006, I had no idea that it had ever housed a nuclear power generating facility. Indeed, no one who wished to attract people to become residents of the town mentioned it.

The fact that Maine Yankee Atomic Power Company now wants to deprive the citizens of Wiscasset from the tax revenue it has enjoyed since the facility was decommissioned in 1997 is an insult. The storage of their spent fuel is a deterrent to the town and its property values.

Thank you for your kind attention.
