To Joint Standing Committee on Taxation  
From: Becky Bartovics  
LD 1298

I am not surprised to read all the opposition testimony for those who benefit from Real Estate and the windfall that has existed over the recent past. However, I live on a coastal unbridged island which is rapidly losing our affordable local housing to short term rental housing. These homes being removed from local affordability are seriously impacting our community's ability to operate. While this bill may not be the best solution for some, it would go a long way to support our communities. Please vote yes on 1298
