

Jacob Posik
Maine Policy Institute
LD 1929

Maine Policy still strongly opposes the amended version of LD 1929. Creating new occupational licensing boards and rules will not solve the problems the bill sponsor seeks to address. It will, however, will make building more expensive and misallocate resources within our economy to make housing more unaffordable and out of reach for the average Mainer. Please read the following before adopting any new licensing regime in Maine: <https://mainepolicy.org/wp-content/uploads/LetUsWorkFinal.pdf>
