In regards to allowing 202% of poverty level to be new bench mark for state to pay part b of medicare for pensioners -- please allow.

Doubt i make the cut off at 24,000.00 a year income -- but do know paying 2,000.00 of that per year makes a significant difference in my economic power.

Figure 38 years on crew and then operating and maintaining Carlton Bridge --- swing shifts, weekends, holidays, 5-6 day weeks, call outs, 8 and 9 hour days is worth a say so.
