I believe the Wabanaki Nations should have full access to federal self-determination policies that so many other tribes across the country benefit from. I want to be proud of my state's investment in equity for the Wabanaki Nations so they can thrive alongside all of Maine's people. Any opportunity to grant self-government AND improve Maine's (& Mainers) relationship with the Wabanaki Nations is a long overdue and the moment is upon us with, LD 2007. It is heartening to see bi-partisan support for LD 2007 and I am adding my support here as well.
