

Katrina Van Dusen  
Freeport  
LD 2007

Please support LD 2007. I travel a fair amount around the US to visit my far flung family and I have seen tribes in other parts of the country achieving economic integration and success. The Wabanaki deserve the same opportunities. I have worked in land conservation for many years, and I appreciate that the tribes in Maine have been good stewards of our shared land and natural resources, since long before Europeans settled here. Full access to federal policies for the tribes will help them to thrive, a boost to all of rural Maine.
