

Sheila Moir
Brooksville, ME
LD 2007

I strongly support LD2007 and would urge the committee and the full legislature to restore sovereignty to the Wabanaki nations who have preserved and cared for the lands which are now the State of Maine for thousands of years before the European settlers arrived. Passage of this act would give our tribes the means to join with those other indigenous nations throughout the United States who are committed to addressing the very real dangers of climate change in a way that honors the needs of the land the people of our beautiful blue planet. Thank you!
