Hampden
LD 2007

To all it may concern,

As a resident, voter and homeowner in Maine I am concerned about ALL people in Maine. My first thought though always is with those who were here before us. Our State is beautiful and the environment we all enjoy began with those who lived, loved, tended and cared for the land.

Passing LD 2007 will be an act of Fairness and Equality. The Wabanaki have been left out of a Nationwide Native American resurgence and it is time Maine corrected that decision. The Settlement Act was never meant to be set in stone and in 2024 we can make the wrong...right.

I am urging you to leave the past behind and right the wrongs by voting to Pass LD2007
