To whom it may concern;

Waiting periods for gun purchases could end up costing lives, instead of saving lives, especially in cases of spousal abuse. This is just more nonsense from the paranoid, anti-gun crowd, that would do nothing to help lower crime or save lives. Criminals and other dangerous people get guns illegally, or via the black market, on a daily basis. This bill is being proposed by fear mongering, anti-gun folks who have about zero knowledge of reality.

Thanks for your time.

Yours truly,  
James Andrews
