LD 2224

Good morning. I am testifying in support of LD 2224. My husband, a former hunter, used a gun to commit suicide, in 2013. A legitimate gun owner, who does not intend to do mass harm, should be fine with a background check, strengthening yellow flag laws, and injury and violence protection at Maine CDC. I do believe responsible gun owners do support this legislation and can differentiate between hunting rifles and assault weapons. These are necessary steps to protect the electorate from more gun violence. Thank you.
