LD 40

Thank you for the opportunity to testify and for the work everyone has done to move toward liberty and justice for cannabis stakeholders.

I write from my home where my cultivation area is less than 250 square feet.

LD 40 overall seems like a great bill cleaning up a lot of definitions and I especially appreciate how it makes clear the role of the office.

I have some concern on page 8 regarding the department disclosing my information to municipal employee. It doesn't put me at ease where it's written that the information remains confidential. I live in a very small town surrounded by unorganized territories and information has a way of circulating in places like here. I have a right to my privacy for the sake of privacy but also for safety.

Thanks again for everyone's work.
