

Dorisann Wagner  
Fairfield  
LD 227

Dear Senator Bailey and Rep. Perry and the members of the Health Coverage, Insurance, and Financial Services Committee:

My name is Dorisann Wagner. I live in Fairfield Maine and I oppose ld 227.

I think that making access to gender-affirming health care services and reproductive health care services is a legal right and that interference with access to such services to out of state people or residents. It

It is dangerous to allow a child to get gender-affirming healthcare services without parental approval. This bill would make Maine a sanctuary state for these services, taking away parental rights of a child from this State or any state. This is wrong. The same process would apply to abortion services.

I don't think that the gender affirming medical services or abortions are a legal right.

Please protect families and children by voting against ld 227.
