

Olive Whitney
Brunswick
LD 227

This bill, LD227, is wrong on so many levels. This needs to be stopped. Every parent has the right to raise their children without the government taking that from them. It is wrong for someone to be able to take a child from their parent, without the parents permission, and bring them to another state to have an abortion or have an operation to be transgender to change who they are born to be. A parent has their parental right to teach their children right from wrong and to get them the help they need if they need it. It is not up to the state or anyone other then their parent with their child to make this or any decisions. Which one of you would want you child taken from you without your permission to another state for any kind of operation or any reason. What is wrong with the government in the state of Maine to ever think that any of this bill is ok.
