

Ellen Asherman  
Brunswick  
LD 2086

Dear Senator Carney, and Distinguished Members of the Judiciary Committee

My name is Ellen Asherman and I live in Brunswick

I am asking you to support the bill banning bumpstocks, #2086

Surely the forefathers who wrote the Constitution could not envision that the frequently misfiring muskets of the brave Patriots would turn into the bumpstock weapons of today.

There is no justification for the multiply instantaneous bloodshed that these horrific 'fixed' guns create.

Like the majority of Maine citizens, I am begging you to ban them.

Of course I fervently support the banning of assault weapons. How can we ordinary folk persuade you legislators to face up to the true horror of their ready availability and use? I could not look at the image of a child battered by such guns. Could you?
