

Jane Herbert
Damariscotta
LD 2224

Dear Senator Rotundo and committee members,

I am writing to advocate for the passage of sensible gun legislation that LD 2224 will provide.

Background checks required by LD 2224 are sensible and needed. We have witnessed scenes of "death by police" when an emotional problem became overwhelming. Please help those in need of mental health get the help they need instead of using law enforcement to escape their pain.

LD 2224 will help Maine citizens feel safer and be safer. Let's be part of the solution to gun violence in Maine!

Thank you,
Jane Herbert
