

SHERYLL ABBOTT  
SUMNER  
LD 227

I would like to take a minute to state my disapproval of LD227. First of all, abortion and transgender medical care are not/should not be a RIGHT! Once again, the government of Maine is attempting to play with baby's and children's lives. In the case of abortion, a life is a life whether still in the womb or not. Abortion is murder! And, secondly, it is obvious that the State of Maine is also trying to take away the rights of parents to make decisions for their children. We need to let children be children and should help them accept and embrace the gender God made them. . . rather than encouraging them to go through dangerous (barbaric) surgeries. In most cases, the child is not old enough to make such an important decision and does not know the dangers. To allow this to happen (and even pay for it with tax payers money) without parent approval, or even parent knowledge sometimes, is horrific! We also need to let parents be parents and do what they believe is best for the children. In MOST cases, that is not for the state to decide. Please vote against (or KILL) this bill ! ! !
